Objective Looking for a challenging role in a reputable organization to utilize my technical and management skills for the growth of the organization as well as to enhance my knowledge about new and emerging trends in the IT sector.

Experience:

1. Nov 2023 - Present: Frontend Developer at Rytsense Technologies | Remote

- Designed and implemented dynamic user interfaces using React.js, improving user experience and reducing page load times.
- Collaborated with backend teams to integrate RESTful APIs, ensuring seamless data flow and robust application functionality.

2. Frontend Developer Intern | Duration (Sept 2023 – Oct 2023) at Ricecity | Remote

- Collaborate with our front-end development team to create visually appealing and user-friendly web interfaces
- Learn and apply React, HTML, CSS, and JavaScript to develop and maintain interactive web pages.
- Debug and troubleshoot front-end issues to improve website functionality.

Projects

1. BlueField

Description:

The BlueField Project, developed for the Oman Electricity Government, is a comprehensive software solution designed to streamline and enhance various workflows. This powerful tool enables users to create custom forms with unique names, customizable fields, and validation settings. Once forms are created, users can upload Excel files for each workflow, facilitating data management and visualization through map and table views.

Technology: React JS, Tailwind CSS, Redux

Responsibilities:

- Handled over 10,000 records on Google Maps using clustering for efficient performance and clarity.
- Implemented dynamic creation of workflows using a drag-and-drop interface in React.
- Developed responsive and user-friendly UI designs for both user-facing and web admin applications.

2. Bukit

Event Booking Platform

Description:

Designed and developed a responsive web application for booking events based on user locations. The platform supports three types of user flows: User, Vendor, and Admin, each with distinct features and access levels tailored to their roles.

Responsibilities

- Developed user interfaces using React.js, Tailwind CSS and State management using Redux ensuring responsive and intuitive user experiences for all three user roles.
- Integrated APIs to fetch location-based events and booking details dynamically.
- Created reusable and modular components to streamline development and enhance maintainability.
- Implemented role-based authentication and conditional rendering of dashboards for User, Vendor, and Admin.
- Collaborated with backend developers to define data structures and optimize API responses.
- Utilized React Router, Axios for routing, data fetching, and form handling.

Professional Skill:

- React JS
- Next JS
- Node JS
- Express Js
- HTML
- JavaScript
- GIT
- Redux
- Tailwind CSS
- Mongo DB
- Mongo DB
- CSS
- MySQL
- Pipeline

Educational Qualification:

Bachelor of Computer Application	2019-2022
C.D. Jain Collage Of Commerce, Shrirampur, Maharashtra	

Higher Secondary	2017-2019
New English School and Junior College, Chitali, Maharashtra	

High School	204-2017
New English School and Junior College, Chitali, Maharashtra
